BEFORE THE IOWA BOARD OF PHARMACY EXAMINERS

In the Matter of the Complaint :
and Statement of Charges Against : DECISION AND ORDER
BARRY A. GENG, Pharmacist :

TO: Barry A. Geng

STATEMENT OF THE CASE:

A Complaint in Statement of Charges against Barry A. Geng was filed by the Executive Secretary of the Iowa Board of Pharmacy Examiners on May 16, 1985. All essential allegations of the complaint being denied, a hearing was held in Des Moines, Iowa, on August 14, 1985, after due notices were issued. Barry A. Geng participated in person and was represented by Craig D. Warner, attorney at law. Five exhibits, marked Exhibits G-A, G-B, G-C, G-D, and P-G-A, were admitted into evidence on behalf of Mr. Geng. Thomas D. McGrane, Assistant Attorney General, represented the Executive Secretary. Testimony in support of the Complaint was given by E. Ray Sheldon, James W. Reardon, Thomas Greene, Michael Miller, Stacy Schroeder, and Wanita Grinnell. Ten exhibits, marked Exhibits 1, 2, 3, 7, 10, 11, G-14, P-G-15, G-16, and G-17, were admitted into evidence in support of the Complaint. William Bauer, attorney at law, participated in the hearing on behalf of William R. Monroe, Jr., responded in an associated case which was joined in part during these proceedings. Pursuant to Mr. Geng's request, the hearing was closed to the public. Certain evidence previously submitted during open session in relation to the complaint against William R. Monroe, Jr., was incorporated by reference and was not repeated in closed session.

The undersigned administrative hearing officer presided at the hearing and participated in the deliberations of the Board of Pharmacy Examiners (Board) after the conclusion of testimony. Board members Margo L. Underwood, Melba L. Scaglione, Jerry M. Hartleip, Rollin C. Bridge, Alan M. Shepley, and Gail W. Stapp participated in the hearing and deliberations. John F. Rode, Chairperson of the Board, did not participate in the hearing or the deliberations because of his prior discussions with Mr. Geng and his attorney. After the conclusion of testimony but prior to the final determinations of the Board, Mr. Geng contacted a member of the Board in an attempt to discuss the matter. No discussion was allowed, but the Board wishes to state for the record that such contact is inappropriate.

Having heard the testimony of the witnesses and having examined all of the evidence in the record, the Board made its decision and instructed the hearing officer to prepare its Decision and Order.

FINDINGS OF FACT:

Barry A. Geng was issued Iowa Pharmacy License number 12905. His license is current until June 30, 1986.

Mr. Geng was at all relevant times the president/vice-president and 50 percent shareholder of the corporation which owns Apothecary 24, a pharmacy in Burlington, Iowa. He was employed as a professional pharmacist by Apothecary 24 at all pertinent times herein.

Between March 19, 1985, and April 8, 1985, audits of the records and inventory of Apothecary 24 performed by authorized agents of the Board for the period June 30, 1983, through March 19, 1985, established the following shortages:

- a. 4,140 Valium five mg tablets, a Schedule IV controlled substance;
- b. 7,077 Valium ten mg tablets, a Schedule IV controlled substance;
- c. 770 Fiorinal with Codeine 30 mg capsules, a Schedule III controlled substance;
- d. 1,200 cc (10 x 4 oz. bottles) of Novahistine DH, a Schedule V controlled substance;
- e. 1,656 cc (13.8 x 4 oz. bottles) of Robitussin AC, a Schedule V controlled substance;
- f. 45,480 cc (379 x 4 oz. bottles) of Terpin Hydrate with Codeine Elixir, a Schedule V controlled substance;
- g. 3,090 cc (27.75 x 4 oz. bottles) of various Phenergan with Codeine products, Schedule V controlled substances.

A separate audit also conducted between March 19, 1985, and April 8, 1985, by authorized agents of the Board covering the period December 21, 1980, through June 30, 1983, revealed the following shortages:

- a. 10,088 cc (21 pints) of Paregoric, a Schedule III controlled substance;
- b. 3,260 Valium 5 mg tablets, a Schedule IV controlled substance;
- c. 5,645 Valium 10 mg tablets, a Schedule IV controlled substance.

Another separate audit also conducted between March 19, 1985, and April 8, 1985, by authorized agents of the Board covering the period March 19, 1985, through April 8, 1985, revealed the following shortages:

- a. 384 Valium 5 mg tablets, a Schedule IV controlled substance;
- b. 666 Valium 10 mg tablets, a Schedule IV controlled substance.

On various dates, Mr. Geng sold four ounce bottles of Schedule V nonprescription cough preparations without making adequate inquiry as to

the medical necessity for the medications.

Also on various dates, Mr. Geng sold four ounce bottles of Schedule V cough preparations to the same individual within periods of less than 48 hours.

REASONING AND CONCLUSIONS OF LAW:

From the evidence in the record, the Board concludes that Mr. Geng sold Schedule V cough preparations on various occasions without first ascertaining the medical need for the preparations. This constitutes a violation of Section 204.308(4)b of the Code of Iowa. In addition, the evidence in the record establishes that Mr. Geng repeatedly sold Schedule V cough preparations to the same individual within 48-hour periods of time. Sales to the same individual within 48 hours is a violation of Section 620-8.13(15)b of the Iowa Administrative Code. The record clearly establishes that Mr. Geng violated the legal restrictions placed on the sale of Schedule V nonprescription medications through his indiscriminate sales. He is subject to discipline for violations of the Code and Administrative Code, and his actions constitute evidence of negligence in the practice of his profession.

The evidence in the record establishes significant losses from the inventory of controlled substances at Apothecary 24 during a period in which Mr. Geng was a 50 percent shareholder, corporate officer, and professional employee. The record also establishes that the applicable licenses issued to Apothecary 24 were in the name of Mr. Geng personally. Mr. Geng did not meet his professional obligation to maintain the physical safety and the integrity of the controlled substances in Apothecary 24's inventory.

The evidence in the record indicates that Mr. Geng was not aware that the loss was occurring. The Board accepts this evidence and makes no implication that Mr. Geng was allowing inventory loss for personal gain. Nonetheless, it was his duty to monitor and maintain the inventory to prevent the diversion of his inventory of controlled substances for illicit use. His failure to take steps to do so constitutes evidence of negligence.

The absence of effective inventory control is so obvious in this case that it can be comprehended even by those without formal training in the field of pharmacy. No expert witnesses were necessary to establish the fact. Furthermore, the evidence in the record establishes that the inventory was under the exclusive control and management of Mr. Geng's corporation. The record also indicates that losses of the magnitude shown here would not ordinarily occur had reasonable inventory control been maintained. Under circumstances such as these, no expert testimony was needed for the Board to reach its findings.

From the facts in evidence and for the reasons set forth herein, the Board concludes that discipline of Barry A. Geng is justified because of his violation of state law and department regulation in the sale of Schedule V cough preparations and his negligence in the maintenance of his inventory.

DECISION:

It is, therefore, the order of the majority of the Iowa Board of Pharmacy Examiners that Iowa Pharmacy License number 12905 issued to Barry A. Geng should be and is hereby suspended for a period of one year, provided that all but 90 days of said suspension shall be stayed if the said Barry A. Geng complies fully with all the terms and requirements set forth herein. The 90 day suspension shall begin not later than March 21, 1986. Mr. Geng shall notify the Board in writing as to the date that he wishes to begin his suspension, and he shall surrender his license to the Board not later than the date the suspension is to begin.

It is further ordered that Barry A. Geng shall be placed on five years' probation following the reinstatement of his license. He shall further be on probation prior to the effective date of his suspension as ordered in the paragraph above.

It is further ordered that Barry A. Geng shall be fined the sum of \$1,000.00, said amount to be payable in full within 60 days of the effective date of this decision.

It is further ordered that Barry A. Geng shall retake the Federal Drug Law Examination prior to the reinstatement of his license, and that he shall receive a passing score as of the date of the examination.

It is further ordered that Barry A. Geng shall prepare and submit, subject to Board approval, written policies and procedures for the professional operation of a pharmacy in accordance with federal and state requirements. Said policies and procedures shall contain:

- a. Policies and procedures for dispensing Schedule V controlled substances;
- b. Policies and procedures for the physical security of controlled substances;
- c. Policies and procedures for the verification and documentation of possible alterations of prescriptions;
- d. Policies and procedures for the delineation of management responsibilities.

It is further ordered that Barry A. Geng shall take no part in the judgmental and non-judgmental functions of dispensing prescriptions during the period of the actual suspension of his license. Non-judgmental dispensing functions include:

- a. Retrieving and filing prescription labels;
- b. Typing prescription labels;
- c. Inputting prescription information into a computer;

- c. Inputting prescription information into a computer;
- d. Retrieval of prescription drug bulk containers from storage;
- e. Counting tablets and capsules and placing them in appropriate prescription containers;
- f. Pouring liquids into appropriate containers;
- g. Handing completed and verified prescriptions to the patient or the patient's adult representative;
- g. Recording information on patient records.

It is further ordered that Barry A. Geng make no sales of Schedule V controlled substances without prescription for the duration of his probation.

It is further ordered that should Barry A. Geng become pharmacist-manager of another pharmacy within the period of his probation, three actual, physical inventories of controlled substances shall be taken at six-month intervals beginning with his assumption of the position. A copy of each such inventory shall be mailed to the Board office.

It is further ordered that Barry A. Geng shall obey all federal and state laws and regulations relating to the practice of pharmacy.

It is further ordered that Barry A. Geng shall report to the Board or its designee quarterly. Said report shall either be in person or in writing, as shall be directed. Should the final probation report not be made as directed, the period of probation shall be extended until such time that the final report is made.

It is further ordered that Barry A. Geng shall submit to peer review as deemed necessary by the Board.

It is further ordered that Barry A. Geng shall provide evidence of efforts to maintain his skill and knowledge as a pharmacist as directed by the Board.

It is further ordered that Barry A. Geng shall notify all present and prospective employers of the decision in this case, and the terms, conditions, and restrictions imposed by said decision. Within 30 days of the effective date of this decision, and within 15 days of his undertaking new employment, Barry A. Geng shall cause his employer to report to the Board in writing acknowledging that the employer has read the decision in this case.

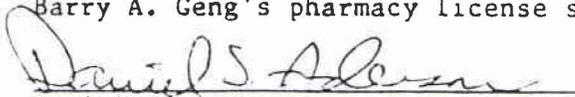

It is further ordered that Barry A. Geng shall not supervise any registered intern and shall not perform any of the duties of a preceptor during the course of his suspension and probation.

It is further ordered that should Barry A. Geng leave Iowa to reside or

dates of departure and return. Periods of residency or practice outside the state shall not apply to the reduction of the probationary period.

It is further ordered that should Barry A. Geng violate any term of this probation, the Board, after giving him notice and an opportunity to be heard, may revoke probation and carry out the disciplinary order which was stayed. If a petition to revoke probation is filed during probation, the Board shall have continuing jurisdiction until the matter is final, and the period of probation shall be extended until the matter is final.

It is further ordered that upon successful completion of probation, Barry A. Geng's pharmacy license shall be fully restored.
