Call to Order and Announcements

At 9:00 a.m., James Miller, Chairperson, called the meeting of the Iowa Board of Pharmacy to order.

Public Comments

Thad Wunder addressed the Board with the following:

- Technology is being used in pharmacies for safety and efficiency for patients, however Mr. Wunder believes some critical pieces of that technology have been left out of some of the current telepharmacies in the state, that being live audio-video streams between the managing pharmacy and from the pharmacist that supervises the pharmacy technician at the telepharmacy. Mr. Wunder provided the Board with two situations he had encountered and asked that the Board not approve the telepharmacy request on the Board's agenda until some of the potential issues were addressed.
- Providing video or audio recordings of the board meetings and placing those video or audio recordings on a website for the public to view or listen to.
- Finding a more efficient way to contact board members by having their email addresses available online for the public to contact them directly.

Doug Schara thanked the Board for their service and commitment to the practice of pharmacy. Mr. Shara would like the Board to continue their communication by reaching out to the pharmacists in their communities and at meetings; and encourage pharmacy students to attend open session board meetings. Mr. Shara recommended the Board send a letter to the Dean at the University of Iowa College of Pharmacy encouraging pharmacy students to attend open session board meetings.

14. Respondent may request reinstatement of her Iowa pharmacy technician registration by filing an application for reinstatement under 657 IAC 36.13. ADDENDUM I

NOTICE OF INTENDED ACTION

CHAPTER 21, "ELECTRONIC DATA IN PHARMACY PRACTICE"

MARCH 9, 2016

PHARMACY BOARD[657]

Notice of Intended Action

Twenty-five interested persons, a governmental subdivision, an agency or association of 25 or more persons may demand an oral presentation hereon as provided in Iowa Code section 17A.4(1)“b.”

Notice is also given to the public that the Administrative Rules Review Committee may, on its own motion or on written request by any individual or group, review this proposed action under section 17A.8(6) at a regular or special meeting where the public or interested persons may be heard.

Pursuant to the authority of Iowa Code sections 124.301 and 147.76, the Board of Pharmacy hereby gives Notice of Intended Action to amend Chapter 21, “Electronic Data in Pharmacy Practice,” Iowa Administrative Code.

The amendment was approved at the March 9, 2016, regular meeting of the Board of Pharmacy.

The proposed amendment strikes the final sentence in subrule 21.8(4). The sentence was intended to enforce the requirement that a prescription that is created and transmitted electronically must be maintained by the pharmacy as an electronic record and that a printed hard copy of the electronic prescription cannot replace the electronic record as the original prescription record. The sentence has been misinterpreted to prohibit the printing of an electronically created and transmitted prescription.

Requests for waiver or variance of the discretionary provisions of Board rules will be considered pursuant to 657—Chapter 34.

Any interested person may present written comments, data, views, and arguments on the proposed amendment not later than 4:30 p.m. on May 17, 2016. Such written materials may be sent to Terry Witkowski, Executive Officer, Board of Pharmacy, 400 S.W. Eighth Street, Suite E, Des Moines, Iowa 50309-4688; or by e-mail to terry.witkowski@iowa.gov.

After analysis and review of this rule making, no impact on jobs has been found.

This amendment is intended to implement Iowa Code sections 124.301, 124.306, 124.308, 155A.27, and 155A.35.

The following amendment is proposed.

Amend subrule 21.8(4) as follows:

21.8(4) Original prescription. The electronic transmission shall be deemed the original prescription drug order provided it meets the requirements of this rule. The electronic transmission of a prescription drug order for a controlled substance shall meet all requirements of the DEA for electronic prescribing. An electronically prepared and transmitted prescription shall be maintained electronically in the prescriber’s electronic prescription application and the pharmacy prescription application for a minimum period of two years following the date of last activity on that prescription record. ~~Once a prescription is created and transmitted electronically, the prescription record shall not be printed and retained as a hard-copy record.~~
